

Service package

Service

As a service performance you can rent our engineers as well as mechanics – all well skilled – for supervising, assembling or disassembling your plants and machines. Therefore you can rent all tools you need such as pressure generators, bolt tensioning devices or torque wrenches, too.

All spare parts as bolts, nuts or seals could also be delivered and directly mounted by our company

It is an advantage for you to get the hole system one stop

Delivery program at a glance

- Well skilled staff hireable
- Special bolts and nuts supplier
- Special seals supplier
- All essential tools hireable
- Flange services on site
- Measuring on site
- Reconditioning on site

All our products are manufactured in accordance to the quality management system EN ISO 9001 and assure a constant good product quality.

Bolt and nut manufacturing is accredited by several certifier.

Accreditation corresponding to AD-WO and TRD 100 is given by the TÜV.

All products are available with a certificate corresponding to EN 10204 3.1A, 3.1B or 3.1C on customers demand.

All defectoscopy and disruptive material testing could be done on customers demand and will be attested by a autonomous and accredited material testing laboratory.

Convince yourself, please call us.

AS Tech Service Package

The process of purely axial pretensioning, with **AS Tech – bolt and screw tightening devices** or **hydraulic nuts**, is regarded as one of the most precise means of tightening up bolts and screws.

Hand lever pumps, **air hydraulic** or **electrical hydraulic units** are used to generate the pressure for these devices, which are provided with **precision manometers**. The connection between the pressure generator and the consumer is frequently made with **high pressure hoses** and **quick-connector systems**.

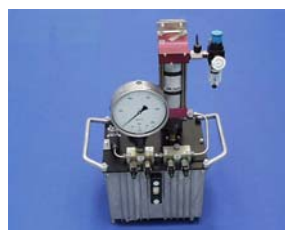

We recommend **regular checking** to ensure the longest possible service life for this equipment and also **safe handling**.

We determine the **maintenance interval together with our customers**.

We would be glad to offer you our tools on loan if you encounter bottlenecks during servicing due to a lack of suitable tools.

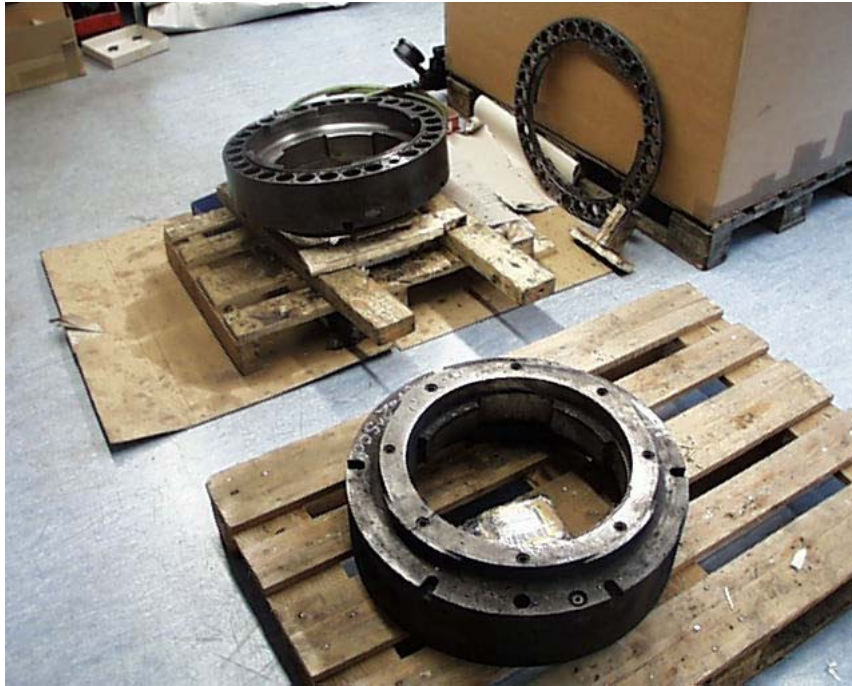

Our scope of service comprises:

Factory test certificate on initial delivery	No charge
Initial instruction for new deliveries, on request	No charge
Tool maintenance within the meaning of QA (all manufacturers)	No charge
Stamping of test pieces	No charge
Factory test certificate after the maintenance	No charge

Convince yourself, please call us.
